

Derailment Throws 9 Cars

A spectacular train derailment involving nine cars of a CPR night freight caused damage to the cars and to about 2,000 bushels of grain.

The north-bound 57-car freight was approaching Vulcan at 11:05 that evening when the fourth car from the engine left the tracks and started the reaction which saw some cars roll, jackknife or wind up sandwiched between others.

No official cause of the accident has been given by CPR officials who were at Vulcan in numbers shortly after it was reported, but it is generally assumed a journal

on a set of wheels burnt out and crystallized the axle. Railroad ties from as far as the first crossing south of Vulcan were creased and when the wheel struck the switch assembly by the Vulcan Seed Cleaning Plant the final break occurred.

The impact of the cars on each other tore up the railbed and broke and bent sections of rail "like taffy" according to one bystander.

Residents in the hospital area of town heard the loud noise of the pileup but darkness covered the scene of the accident and very few were aware of it till next morning.

The cars left the track near the corner of the seed cleaning plant and had there not been a siding at this point the next switch in the way would have been in front of the CPR station building.

In the nine involved cars of the mixed freight were about 16,000 bushels of wheat and 2,500 bushels of barley. Cattle were in one car ahead of the wreck but were unaffected.

No injuries to crew were reported despite the effect of the probable snap to men in the caboose at the rear of the train at the sudden stop.

Two auxiliary work crews with steam cranes from Calgary and Lethbridge worked through the night and all day Thursday. Some cars were hauled to the Kirkcaldy siding and others were cut into sections by blow torches and hauled away. CPR men worked Thursday emptying cars and loading grain into trucks and over to elevators. By Thursday night the line was cleared for the first train through at 10 p.m.

The accident became a large public attraction Thursday as throngs of people watched the crews at work during the day despite intermittent rainfall.

Week's Average 3.07 Inches

The crop report for the County of Vulcan area, compiled from the June 18 reports of 15 Alberta Wheat Pool agents at different points in the county, show that the average rainfall received in the county for the period June 11 to June 18 was 3.07 inches and the county average since May 1 is almost 5.2 inches.

The official gauge at the Allan Sim farm in the Berrywater dis-

trict north-east of Vulcan shows 5.05 inches of rain since June 12 and a total of 7.53 since April 1.

These figures reflect June 11-18 rains which lasted most of the week and varied from a low of 1.90 inches at Armada to a high of 4.89 at Arrowwood. Heavy localized showers north of Vulcan and in some other districts have been reported and are not necessarily (Continued On Page 7)

The Vulcan Funeral Home was in charge of arrangements.

P.O. Closed Dominion Day

The Vulcan post office will be closed all day Thursday, July 1. There will be no dispatch or receipt of mail and the lock box lobby will be closed all day.

As usual on the Dominion Day holiday July 1, most local stores and business places will be closed.

KERRY CUMMINS

At the Calgary Booster Club provincial amateur age championships held at Calgary on June 5, Kerry Cummins placed first in the 440 yd. dash for midget men to win a bronze medal and certificate. He also placed third in the 220 yd. dash for midget men for a certificate.

Kerry, age 15, is the second son of Mr. and Mrs. H. Cummins of Barons (formerly of Champion) and will be remembered for winning his age class at the South Central Zone Meet at High River last year.

Kerry won the right to attend this meet by winning 1st place in the junior boys 440 yd. dash at the Provincial High School Track Meet held at Stettler on May 29. He also placed third in the 220 yd. dash at Stettler.

To qualify for Stettler, Kerry won in the South Western Alberta Zone Meet at Lethbridge getting 1st places in the 440 and 220 yd. dashes, and placing second in the 100 yd. dash.

Golf Club Playoffs To Start Soon

Men members of the Vulcan Golf Club are reminded that all members will be drawn up for club playoffs immediately and they should check at the clubhouse to see who they play against as there will be a time limit for all matches. It is hoped that a supreme effort will be made this year by the membership to have all matches completed.

At High River's tournament last week the only Vulcan winners were the ladies, with Thelma Haverty winning the Championship flight and June Wellman and Ethel Banks tying for second.

A number of Vulcan ladies are taking in the ladies tournaments this week at both the Henderson Lake and the Country Club in Lethbridge.

Dominion Day Celebration Should Be Best Ever

The Vulcan Elks have put a lot of effort into making this year's July 1 celebration bigger and better than ever and have come up with a program that should have wide appeal and attract a large crowd.

The big parade at 10:30 a.m. starts the show and at noon a beef barbecue with all the trimmings is planned. The barbecued beef will be served from 11:30 to 1:30 at a nominal charge.

A senior baseball tournament sees Vulcan opposing Nanton at 12:30 p.m., Champion vs. Mossleigh at 3:00 p.m. and the final game at 5:30 p.m. At 1:30 p.m. gymnastics fans can watch jackpot and amateur events and junior bronze busting.

The Elks always try to make July 1 a special day for the youngsters and will again provide free ice cream and soft drinks for all the kids, with foot races at 3:00 p.m. A ferris wheel will be in the grounds and there will be bingo for everyone.

A parade isn't a parade without a band and this year the Vulcan County Band will head the parade and will also play at the grounds at different times during the day. Numbered leaflets will be dropped by plane on surrounding towns and lucky numbers will be drawn in the afternoon for cash prizes. Holders of the lucky leaflets must be present to win.

SQUARE DRAW

A somewhat belated curling report was received this week, showing that the square draw of the County Central High School curling club was won by the rink skipped by Lionel Clarkson, with Ray Uily, Lynn Drummond and Don Grant as the other team members.

All trophies for this event were provided through the courtesy of Cliff McAskie of McAskie's Men's & Boys' Wear Ltd.

TOMMY KLIPPERT... YOU'D SMILE TOO

Hole-in-one For Young Golfer

Mount Rundle near Banff must have echoed to a new cry on Saturday, June 22. If it did the sound should have come from Tommy Klippert of Vulcan who scored a hole-in-one at the Banff Springs Golf Course that day.

At a Calgary Power Ltd. tournament and in a flight with his father Howie, local power company representative, Max Anderson of Brooks and Ken Metcalfe of Calgary, 14 year old Tommy achieved the golfer's dream shot on the 155 yard 6th hole. Par was a three which became incidental as Tommy whacked a Titleist ball with a number three iron onto the green. One suggestion was that the ball had gone over and out of sight but no one could be sure so their answer came when they

stared into the cup. This young golfer was not just the victim of lucky circumstance. He toured the arduous course in 97 strokes and has worked the local course over in 38 during his four years of golfing.

Dad Klippert who says he can't break 100 on the Banff course, proudly stood the group to the customary refreshments this feat entails, on behalf of his son. There may have been some envy in this pride as Howie, who is no slouch on the course himself, admits to losing by six strokes to Tommy on the Henderson Lake course at Lethbridge.

The ball is being mounted and will be returned to Tommy as a memento of one of his better days.

Town Council Meets

Centennial Grant May Assist Recreation Centre

At the June meeting of the Town of Vulcan Council, a report was given of a recent meeting of municipal secretaries with T. M. Athell, Alberta Centennial Co-ordinator.

The County of Vulcan will not make application for a centennial project of its own and will waive its rights to centennial grants in favor of the various municipalities concerned and in accordance with the population of the various areas.

In view of the fact that applications for grants for centennial projects must be made by September 30, 1965, the Town of Vulcan will contact the Vulcan Recreation Committee to see if part of the proposed recreation centre could be designated as a centennial project for the town.

Pre-registration Under Way

Mobile Chest X-ray Unit Will Visit Area Soon

In the near future, the Mobile Chest X-ray and Tuberculin Testing Unit will visit Vulcan, Champion, Carmangay, Arrowwood, Milo and Blackie. Pre-registration of every family in these communities is now being carried out and arrangements for the visit of the unit to each community are being made by Miss E. Riddoch, Director of X-ray Surveys for the Alberta Tuberculosis Association.

The service, sponsored jointly by the TB Division of the Alberta Department of Public Health and the Alberta Tuberculosis Association Christmas Seal Fund, is a source of early discovery not only of tuberculosis but of many other chest abnormalities, including—tumors, emphysema, heart irregularities, pleurisy, etc. The chest X-ray is especially valuable in the discovery of lung cancer and by this means this disease may be revealed some time before symptoms become obvious.

All persons not attending school (excluding the pre-school-aged child) will be included in the registrations now under way. School children are being screened by means of a tuberculin test at

school, through the services provided by the Health Unit, and are not being registered for the X-ray clinic. Time and location of the clinic in each community will be announced as soon as the pre-registration of each family is completed.

In Vulcan, the X-ray clinic is being sponsored by the Kinsmen Club, with Dick Warren as general chairman; Jerry Anderson in charge of advance registration; Cleo Schmidt, clinic appointments; LaVern Scott, publicity; Mel Bur-Lehto, volunteer help.

In Champion, the sponsoring body is the Ladies Auxiliary of the Royal Canadian Legion and committee members are: Mrs. C. Sletto, general chairman; Mrs. A. E. Howerton, advance registration; Mrs. H. B. McDonald, clinic appointments; Mrs. V. W. Close, publicity; Mrs. C. Sletto, volunteer help.

In Carmangay, the Little Bow Hospital Auxiliary is sponsoring the clinic. Committee members are: Mrs. Beulah Hubka, general chairman; Mrs. Dale Clark, advance registration; Mrs. Gilbert (Continued on Page 7)

ANOTHER DENOMINATION

Some time ago it was drawn to my attention that there exists another denomination that possibly has more members and adherents than any other single denomination on the face of the earth. Their number is growing by leaps and bounds at the expense of the Christian Church.

This is not a new denomination by any means. It is as old as man himself, but has been given a new name that just couldn't be more suitable. They are the "Blue Domers."

Unlike the Christian Church, they have their best attendances in the summer time, although the winter season does not seem to put them out of commission. The members and adherents of this denomination are very faithful week after week. In fact their faithfulness and regularity is to be envied by the members of the Christian Church. Every Sunday you will find them out under the "Blue Dome" worshipping. Their early departure to the place of their worship often puts many of us to shame who find it rather difficult to get to Sunday School by ten or worship by eleven.

The length of their services on Sunday has never been a matter of contention among the "Blue Domers" and certainly makes our hour of Sunday School and hour of worship look like peanuts in comparison. Their stewardship of time and money is enviable. Regardless of what it costs by way of energy, time, or finances, they give themselves wholeheartedly to

their worship. Their stewardship is enviable.

Whether it is on the golf course, in the swimming pool, on the lake, in the mountains, or wherever it might be (for the number of their worship places is legion), every Sunday the "Blue Domers" are there.

Do you wear a lifejacket every time you go out in your boat? Although you may insist that non-swimming children should wear them, all your passengers should have this protection. Non-swimming fishermen often take a chance of standing in the boat to cast; unless they are wearing safety jackets they could drown if the boat tips or the person slips into the water.

ALBERTA SECURITIES COMMISSION

...protection for Alberta's investors

Canada's economic development has led to a marked increase in financial offerings of stocks, bonds, shares and debentures — particularly in Alberta where there has been a substantial increase in local issues. Protection of investors in Alberta is provided by the Attorney General's Department through the Alberta Securities Commission.

All firms offering shares must first file a prospectus with this Commission, and a copy of the prospectus must be delivered to every buyer before completion of the purchase. The Commission ensures the prospectus makes full, plain and true disclosure with regard to the company, its officers, financial status and the nature of the security offered.

Another function of the Securities Commission is to guard against fraud connected with the sale and distribution of shares. It has an overall supervision of firms and individuals selling shares and debentures. Every broker, investment dealer, broker-dealer, security issuer and their sales representatives must be approved and registered with the Alberta Securities Commission before legally engaging in business.

The Commission has, and exercises, wide investigation powers and is continually conducting audits and investigating complaints lodged with it by the public. In national and international fields the Alberta Securities Commission works in close cooperation with similar commissions in other provinces of Canada and the Securities Exchange Commission in the United States.

The Alberta Securities Commission also administers The Investment Contracts Act, The Mortgage Brokers Act, The Cemeteries Act where applicable to commercial cemeteries, The Prearranged Funeral Services Act and The Deposits Regulations Act.

Alberta is a good province in which to invest money—The Alberta Securities Commission helps keep it that way.

Vulcan Light Horse Association can be assured of at least one new member in years hence. She is Nancy Birch, just now six years old but already the owner of a fine pinto, Spook, and saddle as a result of her signature being on the lucky ticket which was drawn

at the recent gymkhana of the Light Horse group. The Bill Birch family live a few miles north of town along the highway and pasture is no problem and Spook gets lots of exercise from Nancy and other young members of the family.

A winter project about to pay dividends in summer outdoor pleasure is shown above. Early in January Fred DeJong put some of his spare time hours to work building a sail boat at the back of his old bakery building. About three weeks ago one problem suggested by observers, as to whether the completed body would pass through the door, was answered. Fred is shown above with Roy McLennan bringing the boat out with inches to spare. The boat is 13 feet in

length with a five foot three inch beam. There are 113 square feet of sail and the mast is 20 feet high. There is comfortable seating for six persons and speed is whatever the prevailing winds and an expert sail boat captain can produce. The next problem is whether it will float and handle as it is supposed to but Fred, who has had experience in his native Holland with similar sized boats, is not worried.

QUEENSTOWN

The girls of the Grade 8 class held a party in honor of Miss Beverly Hellevang at the home of Mr. and Mrs. George McMorris. Beverly will be moving to Calgary with her family during the summer season.

Congratulations go out to Miss Levona Lahd who was chosen Queen at the Lake McGregor Race Meet.

A number of ladies attended the Women's Institute Conference at Langdon last week.

Mr. and Mrs. Smith of High River visited Mr. and Mrs. Paul Lecuyer the weekend of June 12.

Mr. and Mrs. Jack Long attended a wedding dance at Bassano Saturday evening. They also visited Mr. and Mrs. Fred Zaytsoff.

Billy Long, son of Mr. and Mrs. J. Long, held the lucky ticket and won a transistor radio on the Lake McGregor queen raffle.

Word has been received by the Dinton WI that the Book of Golden Charity labels will not be accepted after June 30, 1965. Therefore it will be necessary for anyone having labels on hand to give them to Mrs. R. W. Lowery as soon as possible.

Calvin Lowrey underwent an eye operation at Calgary General Hospital. A speedy recovery is wished him by his many friends.

W.I. MEETING

The June meeting of the Dinton WI was held at Dinton Hall Wednesday, June 16. The grandmothers of the district were entertained so a short meeting was held.

Mrs. Alvin Montgomery welcomed the grandmothers which included three chartered members, namely, Mrs. Isaac Laycraft, at whose home the WI was organized in 1916, Mrs. J. E. (Hattie) McKeage, both of High River and Mrs. J. P. Kennedy, Innisfail.

The meeting opened with everyone reading the creed in unison. Mrs. Montgomery read a poem, The Perfect Day. Roll call was answered by 20 members.

The motto for the month was Just about the time a woman thinks her work is done, she becomes a grandmother. Roll call next month will be answered by bringing a cup and saucer for the hall. Contributions would be greatly appreciated. The meeting adjourned and a short program followed. Mrs. John Gillanders gave a reading, Mother's Day. Mrs. Wm. Groeneveld conducted a most interesting contest. Mrs. Dave Ellice won the prize for the most points. Mrs. Keith McKeage then presented small gifts to other winners.

Mrs. S. W. Gillanders and Mrs. Keith McKeage took pictures of the grandmothers for the WI history book.

WILD OATS— THE NO. 1 WEED PROBLEM

How seriously can fields become infested with wild oats? The University of Manitoba checked actual fields and found as high as 20 bushels per acre of wild oat seeds in the top one inch of soil. In Alberta the Lacombe Experimental Farm found as high as 70 bushels per acre of wild oat seeds in the top six inches of soil.

Add to this the characteristics of slow germination in the spring, seeds that can remain viable for many years in the soil and you have a weed that is indeed difficult to bring under control.

The wild oat is a costly weed for Western Canadian farmers. Experiments at the University of Saskatchewan reveal a moderate wild oat infestation will reduce barley yields by 16%, wheat yields by one-third, oat yields by one-half and flax by as much as 85%.

Cultural control by delayed seeding has been the most common method of controlling wild oats. The results, however, are often times disappointing, not only from the standpoint of wild oat control but yields are invariably reduced when seeding is delayed. These results point out that Prairie farmers can't afford not to take another look at their Wild Oat Control Program.

Chemicals offer the positive and practical method of controlling wild oats.

Avadex and Avadex BW are active through the soil; they are applied before seeding as one of the first spring operations or with some crops immediately after seeding.

Avadex is recommended as a pre-planting treatment in flax, sugar beets, rapeseed, sunflowers, potatoes, mustard, corn and forage crops.

Avadex BW is recommended for wheat, barley and field peas. In the case of wheat it should be sprayed on the field one to three

days after the crop is seeded and incorporated thoroughly into the top 1 to 2 inches of soil with a double harrowing. For barley, Avadex BW may be applied before or immediately after seeding and for field peas the pre-planting treatment is recommended.

Carbyne is a selective herbicide for use in wheat, barley, flax, rapeseed, field and canning peas, mustard, sunflowers and sugar beets. Spray wild oats during the two-leaf stage, using 45 pounds pressure. The application of Carbyne at the proper time is an important factor in successful results. Do not spray wheat and barley in the four-leaf stage.

Careful attention to the sprayer to insure even coverage is very important with both Avadex and Carbyne.

The staggering losses caused by wild oats on Western Canadian farms are no longer necessary — they can be controlled effectively and economically with chemicals.

Sixteenth century medicine relied heavily upon burning incense and swallowing strongly spiced medicines.

40-Year Career In Soil Research Established By Ex-Vulcanite

Recognized as the leading authority on soils in Canada, Dr. Alfred Leahy of Ottawa still retains a keen interest in the Vulcan district where he spent his early years and the tie is stronger because of the fact that his sisters, Mrs. Robert (Mae) Todd and Mrs. William (Etta) Hill still live at Vulcan.

Coming from Ireland, the Leahy family were pioneer settlers of the Vulcan district and Alfred Leahy attended the Berrywater school and then the Agricultural School at Gleichen. He received his Master's degree at the University of Alberta and his Ph. D. at Madison, Wisconsin.

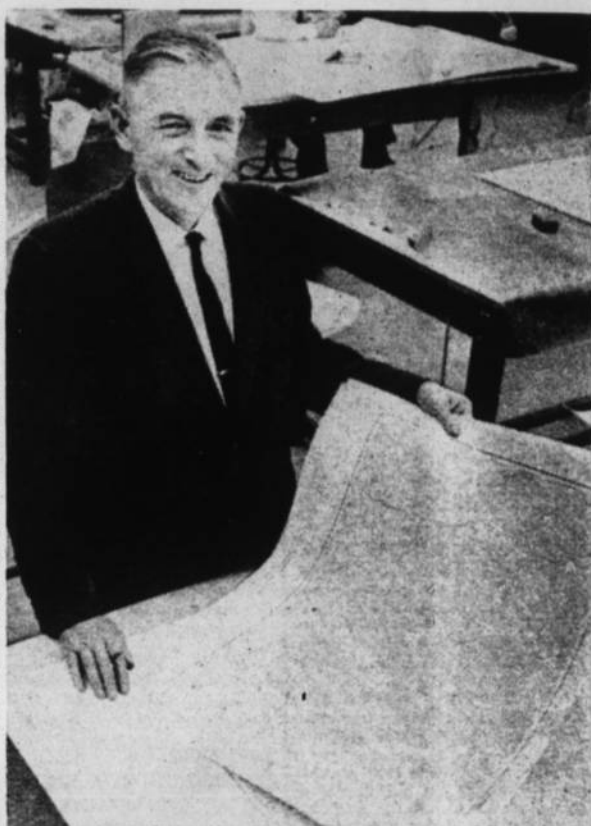

Dr. Leahy, now 64 years of age, has been in soil survey and classification work for the federal government since 1925 and is now soil survey research co-ordinator of the federal department of agriculture. He has been national co-ordinator of Canadian Soil Surveys since 1936.

Dr. Leahy's work as a "soil sleuth" was the subject of a feature story in a recent issue of the Family Herald. He thinks the biggest soil survey job is that now underway for ARDA. In a couple of years there will be figures on

the amount of Class 1, 2, 3, 4, and 5 land in Canada.

He feels that many farms are still not economic, particularly in Eastern Canada. In the west, although farms are being amalgamated, it's no problem to keep the young men on the land. Dr. Leahy believes that the best method of obtaining additional production right now is to improve existing acreage. Lands now being farmed should be managed as wisely as possible, he says, as they are already developed for crop production while virgin lands generally require high development costs and soils and climate are generally less favorable than in our present agricultural areas.

Dr. Leahy says: "One common misconception is that all virgin land when first seeded to crops is productive. The fact is that forested soils are rather unproductive and can be brought to a satisfactory level through the use of fertilizers and by good rotations. Farmers must prevent or compensate losses to soil caused by erosion and the depletion of plant nutrients. The future picture is now encouraging, as most farmers are striving to improve their soil management practices."

MUD SLINGING

Edmonton's (fill-in) mayor this week not only got considerable ink here in the capital city, a number of provincial papers carried his yarn about a sales tax. As many of our readers will recall, it was former provincial treasurer E. W. Hinman who long ago suggested a way to ease taxation was through a provincial sales tax. Mr. Hinman was, of course repeatedly shot down by Premier Manning, and although the sales tax question never seemed to enter the picture, Mr. Hinman soon found himself out of the Manning cabinet and back with the backbenchers.

When a mayor of a city the size of Edmonton starts pushing for a sales tax, once again, ears around Alberta are alerted. I am sure most of us would agree with Mayor Dantzer that we must have some relief from the heavy tax load, but let it come from the already overflowing provincial coffers. After all, the premier is repeatedly telling us we are the richest province in Canada. Let him prove it, and let some of these rich oil dollars flow in the direction of the taxpayer.

ON THE MOVE

Speaking of Ted Hinman, I understand he has pulled stakes in Edmonton and has settled down in Calgary where he plans to operate a financial consulting firm. This may surprise a number of government supporters, but Ted will be much happier out of the shadow of the legislative buildings. Rumours also have it that Mr. Hinman is ready to shake the house of Manning with some inside facts on government operations. At this time, I would think that these rumours are just popycock as any one knows that if there was any substance to the stories they would have been out a long time ago.

Just how dirty the situation may get is anybody's guess, but a few individuals who are constantly putting thorns into the side of the government, contend one of the junior cabinet ministers is in for a rough time. They tell me some affidavits are to be filed with the RCMP this week and pressure is being put on the law to take some action.

FARMERS POW — WOW

Look for fireworks following the meeting slated for the Drayton Valley Legion Hall on Friday, June 25. One of the key speakers is slated to be professor Robin Mathews who is almost anti anything. He was one of the chaps who demonstrated against former Mayor Hawrelak, he is a great supporter for "Edge", and now he is showing his fangs to the government. Also slated to address the group is leader of the NDP, Neil Reimer. They tell me the farmers are really up in arms over the right of entry act and some are anticipating barricades. I guess they feel they can't get their way in the courts, so they will take the only alternative open to them.

THAT NAME AGAIN

Look for the name of ex-assistant deputy attorney general Wally Anderson to make news again. Contrary to many beliefs . . . it appears that Mr. Anderson did not resign on his own, he was encouraged by the powers that be. The men who worked to get him out of office say they are not going to let things drop . . . it seems they are determined to get their pound of flesh. For what it's worth, people say that although Mr. Anderson went astray somewhere, he was an extremely capable man . . . we shall see when the names fly again.

Mrs. Marilyn Lorrain Jackson celebrated her third birthday, June 11 with a family party. Friends were sorry to learn that she had to be taken the following Sunday to hospital in Calgary. She is coming along nicely and will soon be able to return home.

Overnight guests at the home of Mr. and Mrs. P. Gallagher were Mr. and Mrs. E. J. Jensen and daughter, Bodil, of Edmonton with their guest Miss Karen Krarup of Denmark.

Members of the community and relatives from Calgary, Rumsey, and Drumheller gathered at the Brant Curling rink on Thursday, June 17, to bid farewell to Mr. and Mrs. C. Sjogren who will be shortly moving to Vulcan. The evening was spent playing cards. The honored guests were presented with a gift certificate and the good wishes of the community by W. Wyly.

Mr. and Mrs. H. E. Lochett of Seattle, he is a nephew of Mrs. Bea Prater, visited with her on Thursday on the way home after attending a Dental Convention in Banff. Several from Brant attended the Ensign Ladies' Aid tea on Thursday afternoon.

Mrs. Bea Prater also attended the ordination service of the United Church at the Jubilee Auditorium on Sunday, June 6.

UNITED CHURCH

The anniversary services commemorating 61 years of the operation of the Brant church and 40 years of Union were held in the Brant United Church on Sunday afternoon, June 13.

The first services were held in Old Brant under the Methodist Church in 1904 and were conducted by Reginald Piper. In 1905 and 1906 the part of the building now being used as the church was built and used as the Emerson School and the church. It was moved to its present site by horses about 1912. In 1954 the church building was turned around and completely renovated. The Sharon School was moved in and attached to the church for use as hall and Sunday school. Several families in the district donated church windows and plaques in memory of loved ones who had passed on. In June 1955, while Rev. J. McKelvey was pastor, a rededication of the church was held. It was attended by many former members. Dr. J. M. Fawcett, minister from 1921-25 performed the dedication and the Cayley choir led the singing.

Last Sunday Rev. Morse Johnson of High River was the guest speaker while minister. Mrs. J. E. Henderson was in charge of the service. The Cayley choir with Mrs. W. Sloane as pianist lead the singing. They also rendered "I want my life to tell for Jesus" and "How Great Thou Art."

E. W. Prater read letters of greeting from two early ministers, Rev. H. Coates who preached from 1917 to 1921 and who is still active in the church and from Rev. W. J. Bell who preached from 1934-35. A very happy time followed as old friends renewed acquaintances as they sat at supper either in the church hall or at the tables set out on the lawn. Mrs. Bea Prater and Mrs. S. R. Graham presided at the tea table. The luncheon table was gracefully decorated with pink tapers and flowers and an anniversary cake decorated with a miniature church.

Mrs. R. D. McDonald and Mrs. Dolores Payce were in charge of the luncheon arrangements.

Each family received a copy of the history of the Brant church prepared by Mrs. J. M. McKay and put into a booklet by J. E. Henderson. The folks also enjoyed looking at the old pictures.

Mrs. Oscar Jorstad was in charge of the guest book which was signed by 179 guests. The out-of-town visitors were from Calgary, Blackie, Cayley, Meadowbank, High River, Vulcan, Lethbridge, Edmon-

ton, Ensign, Lyalta, Duchess and Big Sandy, Montana.

The church and Sunday school picnic will be held in the High River Park on Sunday afternoon, June 27.

Wayne Short of Lloydminster has been appointed as minister to the Brant-Cayley charge.

BLACKIE

Forty-four Cubs and Scouts and fathers enjoyed a lovely turkey supper at the Annual Father and Son Banquet held in the IOOF hall last Thursday.

The regular meeting of the UCW Nightingales was held in the church basement with Mrs. K. Elliot hostess and Mrs. H. Fairbridge assistant.

Police Report

May was the first month of Summer, when more people were travelling on the highways. During the month there was one fatality and 43 persons injured resulting from 31 traffic accidents. The remaining 39 were property damage accidents causing \$29,626 vehicle destruction. The total for May was 70 traffic accidents. On the brighter side, it is felt that traffic accidents are gradually on the decrease.

I would like to mention seat belts, as they are a good safety device. Safety belts are not intended to prevent accidents but they do reduce injuries. The Canadian Highway Safety Council report that injuries in cars without seat belts were almost double those of cars in which seat belts were in use. Seat belts do prevent passengers or drivers from being thrown out of the vehicle or through the windshield on impact. Most manufacturers equip their vehicles with seat belts as standard equipment. However, seat belts will do no good unless they are used. It is up to the driver to insist that his passengers wear the seat belts that are provided. It is one way to reduce injuries.

I wish to express my appreciation for the wonderful response that has been given by the public in the past. Without your support no safety programme can succeed.
